

WIRELESS CHARGING STATION

MACS-100

INDEX: GSM173083

Forever MACS-100 magnetic wireless charging station 5in1 is a versatile charger that allows you to charge several devices simultaneously. Its compatibility with MagSafe and phones that support wireless charging ensures seamless charging of a variety of device models.

An added bonus is the built-in 5000 mAh power bank, which can be easily detached and taken with you, guaranteeing independence and mobility in any situation. This provides an ideal solution when traveling or in places without access to electrical outlets. The power bank has a charge indicator built into the side and vents designed to dissipate the temperature created during wireless charging. It also has a USB-C port, from which it supports 20W fast charging.

The power bank can also charge AirPods headphones with MagSafe. What's more, it's equipped with a practical foot that acts as a stand while charging the phone, further adding to the functionality of this device.

The set also includes a charger compatible with the Apple Watch, attached using a USB-C connector, which can be disconnected and taken along while traveling. This practical solution allows you to connect it, for example, to a power bank and charge the watch anywhere you like.

The station is distinguished by fast wireless charging. The magnetic mounting of the phone and the support leg ensure the optimal position of the device during charging, which not only facilitates the process, but also increases convenience during use.

The 5-in-1 MACS-100 station allows simultaneous charging of three devices wirelessly, plus it has a built-in USB-A port.

WIRELESS CHARGING STATION

USB-C input voltage: 5V-3A (15W), 9V-2A (18W),
9V-2.22A (19.8W), 9V-3A (27W)

USB-A output voltage: 5V-1A (5W)

Wireless charging power: 5W

Pogo pin travel battery output

voltage: 9V-2A (18W)

DETACHABLE TRAVEL BATTERY

Battery: Li-Poly, 3.7V - 5000mAh, 18.5Wh

USB-C output power: 20W

Wireless charging power: 10W

Pogo pin travel battery input

voltage: 9V-2A (18W)

USB-C input voltage: 5V-2.5A (12.5W), 9V-2A (18W),
12V-1.5A (18W)

USB-C output voltage: 5V-2.4A (12W), 9V-2.22A (19.8W),
12V-1.5A (18W)

DETACHABLE CHARGER FOR APPLE WATCH

USB-C input voltage: 5V-1A (5W)
Output power: 2W

ATTRIBUTES

- 5 in 1
- Detachable travel battery
- 5000mAh capacity
- 10W wireless + 20W wired charging
- Detachable charger for Apple Watch
- Charger for AirPods
- Fast charging
- Stand for resting the phone
- Magnetic attachment to the phone
- Possibility to charge 3 devices simultaneously
- Charging level display
