

## BLUETOOTH KARAOKE MICROPHONE

## **MXBM-500**

PINK - OEM0200492 BLUE - OEM0200493

The Animal MXBM-500 Bluetooth Wireless Microphone with Speaker has a unique design. It is an excellent tool that provides unforgettable fun for both children and adults.

It works with devices that support Bluetooth technology, such as smartphones, tablets, TVs, and computers. It seamlessly connects to your chosen device and initiates memorable karaoke performances anywhere.

Thanks to its compact and portable design, the Animal MXBM-500 Bluetooth Microphone with Speaker is extremely handy. You can take it with you to parties, vacations, or gatherings with friends. Its lightweight and practical size allow it to fit in a bag or backpack without taking up much space.

The microphone offers 5 different voice modulations and an echo effect, allowing you to experiment with various styles and sounds. Additionally, these features make each performance unique and original.

The built-in 600mAh battery ensures uninterrupted fun for up to 5 hours. You don't have to worry about breaks in singing, as the karaoke microphone allows you to enjoy music for an extended period. Furthermore, to facilitate microphone usage, there are volume control buttons available, allowing you to adjust the sound to your preferences.

The microphone has a silicone cover that not only adds a visual effect but also protects the microphone from damage. It features a minijack port for connecting headphones and a microUSB port for charging the device or connecting it to a smartphone.
