

30W PD FAST CHARGER

MXTC-06

OEM0101203

The Maxlife PD QC MXTC-06 mains charger has technological solutions that enable efficient and smart charging of several devices at the same time. With a maximum power of 30 watts, the charger provides fast and safe power for a variety of gadgets. It features two ports: USB and USB-C.

With 30W of power, this charger is able to provide fast charging even for demanding devices such as smartphones, tablets and laptops.

The PD QC MXTC-06 charger is not only compatible with a wide range of devices, but also supports a variety of fast charging protocols, such as Power Delivery (PD) and Quick Charge (QC). Thus, you can be sure that your devices will be charged according to their individual needs.

What sets this charger apart is the system used, which automatically adjusts the current parameters to the connected device. Whether it's a smartphone, tablet or other equipment.

SPECIFICATION
