

SINGLE LENS PROTECTION

Single lens protection boasting a 9H hardness and an aluminum frame, ensures reliable protection against drops and scratches.

Its easy installation, thanks to the precisely fitted frame, makes ensuring lens safety simple and swift. Just apply the frame to the camera, gently press, and remove.

This product not only guarantees protection but also doesn't limit photographic capabilities in daylight, ensuring excellent results.

Its wide compatibility with most cases available in the market is an added advantage, facilitating everyday use.

The protective glass effectively ensures safety, allowing one to enjoy picture quality for an extended period.
