

# NEON LED KONSOLA DO GIER

**FPNE27**

RTV100545

Neon LED Forever Light provides a beautiful effect of colorful glow in any room. Its highly efficient LED technology consumes minimal electricity, and it can be conveniently powered through a USB port. The neon features colorful elements, and its shape fits perfectly into various spaces.

The neon's holder allows for hanging the lighting on vertical surfaces. The atmospheric light is suitable for interior spaces such as restaurants, bars, and other areas where colors can enhance the ambiance. What distinguishes neons is their uniform light dispersion, without noticeable light points.

The built-in dimming function enables adjustment of the brightness of the light emitted by the neon. Additionally, the Neon is equipped with an ON/OFF switch, allowing for easy turning on and off without the need to disconnect it from the power source.
