

MAGNETIC WIRELESS CHARGER

MAWC-100

INDEX: GSM173079

The Forever MAWC-100 wireless charger is a device that provides fast and safe charging with a power of 15W. It is compatible with MagSafe technology and with phones that support wireless charging.

The installation is done using a magnet, which securely holds the charger in place, making it convenient and trouble-free to use. The durable metal construction and stylish appearance not only make the MagSafe-compatible charger perform its function perfectly but also seamlessly complements the phone's design.

With a 1-meter-long cable, users have the flexibility to use their phone while charging. The cable is compatible with chargers equipped with a USB-C port.
