

# 45W PD FAST CHARGER

**MXTC-07**

OEM0101205

The PD QC MXTC-07 wall charger provides simultaneous and efficient charging for three devices. With a power output of 45W and support for various fast charging protocols such as Power Delivery and Quick Charge, this charger offers excellent support for modern mobile devices. Whether the user is using a smartphone or a laptop, they will undoubtedly appreciate its fast and secure charging capabilities.

Constructed from high-quality materials, this wall charger ensures durability. Its robust construction makes it exceptionally resilient. Equipped with three ports - USB and 2x USB-C - it allows for the simultaneous charging of three devices.

Its greatest strength lies in the intelligent system that adjusts current parameters based on the connected devices. Regardless of the device type, the system automatically adapts optimal current settings to ensure fast and safe charging. This feature is particularly important for individuals who prioritize comfort and safety while using a charger.
