

# SMART CARBON CASES

Smart Carbon Case is a combination of the latest technologies and practical design, providing comprehensive device protection. Precise cutouts for the camera allow maintaining excellent photo quality while protecting the camera lenses. The special construction ensures protection of the camera island from scratches and damage. The magnetic closure guarantees safety and stability while allowing easy opening and closing of the case.

The case has reinforced corners that additionally protect the phone in case of drops and impacts. Inside the case, there is a pocket for cards, eliminating the need to carry a wallet. The stylish design imitating carbon fiber gives a modern and elegant look.

## ATTRIBUTES
